

Draft reports of IAG-Manipur emergency coordination review meeting on Manipur floods, 2017 held on 24th July 2017

Time: 11.00am -1.00pm

Venue: DSSS, Mantripukhri, Imphal.

Members present

1. DSSS
2. CASA
3. IRMA
4. OXFAM India

Agenda:

1. Sharing of the experiences and Situational report as of today.

Fr. Mung, Director Fin/Hr, DSSS, conducted the review meeting in the absence of the Convenor of IAG Manipur Fr.Avince. He extended warm welcome to all the IAG members present. The members present shared the immediate relief program taken up/ implemented along with the assessment reports which is still ongoing. At present the members could reach out to some areas of Imphal East, Imphal West, Thoubal and Bishnupur district.

First phase of intervention: CASA in collaboration with MBC had completed the first phase with its internal fund covering 530 families with dry ration within Imphal East District. And OXFAM partnering with IRMA had covered 500 families with hygiene kits in Bishenpur district and still yet to complete the distribution at Thoubal and Imphal East for 2000 families. IGSSS with its internal fund, partnering with IRMA had reached out to 215 families in Imphal West district.

Second Phase of intervention: DSSS, CASA and IGSSS had also applied a proposal to their donars and waiting for an approval to reach out more to the unreached. Oxfam expressed their interest in public health promotion for the second phase.

The members also shared and discussed the challenges faced in reaching out to more areas and selection of beneficiaries as resources are limited but the demands are much greater and this time very few agencies could reach out for Manipur flood. As per the official reports of the state govt. the worst affected families reach to around 20,000. This is the worst flood situation in the last 20 years in Manipur.

The members agreed to share the JRNA reports when their proposals are approved and review it when need arise.

The members also agreed to meet and share the situational reports to the govt. authority of the concerned dept. especially Disaster Management dept., GOM for better coordination and information sharing. The members also felt the need for mobile health care unit and trauma counseling to the affected areas especially women and children.

The team also decided to visit Kalikhola in Kangpokpi District to assess the earth fissure.
